Lowell Wesley "Bud" Robbins History

"We traded our Orem home (could not sell it because of a big strike at Geneva Steel) for our present home (in Salt Lake City). We ended up with an \$18,100 mortgage. It was listed at \$24,000. We thought it was a white elephant and were going to move in two years but are still here."

Wasatch Junior High School - integral part of life living across the street for so many years. A beautiful view, then a fiery tragedy.

Here is your letter:

At the ages of 78 and 80, we have no real agenda about the rebuilding of Wasatch Junior High except we love the school and the hustle and bustle it involves. We moved into our home June of 1962. Friends and neighbors thought we were crazy to move across the street from a school. They were so wrong! It was the best neighbor you could ever want. The kids have been great. In fact, several times when we have been doing something in the yard, we have been asked if we needed any help. We have been able to do our good deed for the day by offering to take a student home if they have been temporarily stranded. One Mother even had her son drop off a flowering planter the morning after we took her son home. We've loved the opportunity to be a part of the school community.
