Dear Jalaine;

I'm wondering did you get the birthday card? You know I put my address up in one corner for one reason, and you know why. I've been wondering and wondering have you quit work yet?? Do you kinda miss calling 6-3375 every day and complaining about your latest developments and condition.

I guess Helen is down staying with you now, put her to work good and you just take it easy. Boy when I come home I'll be able to cook more than just Spaggetti and meat balls for your supper, I know lots of tricks now.

So the Baby will be coming through in Nov. Will like I told my lady friend here I'll hit home just about in time to play nurse maid for you. I'll leave here about 27th of Oct. So be sure and hang on until I get there.

Well the heat has hit this Caroline State again; and darn its hot. So darn hot it makes you think your going to die, and I'm not just a kiddin;

I'm Sunday School teacher now for the wee ones of the branch, there's one family here about like the Carlson's; its a good thing too or I wouldn't have any kids to teach.

Mother gives me the word about you flying out to Calif get that flying, your really getting hot stuff, now be careful Jalaine and don't be running around too much cause you've got a have this baby and have it right. Got the name all picked out; it's ok if you want to name it Shirley cause I'm not going to use that name but by darn don't name it Susan cause I am that one.

Hows Aunt Von and all the S.L.C. relatives? Went to apply for a job last Thursday and they said no women jobs open. I sure was glad. But anyway they're going to try and get that un-employment wages for me; hope they can cause we don't have any too much money to live on.

Got your fruit bottled yet. Jalaine; you know next winter you'll have 3 mouths to feed.

Well guess I'd better close. Write to me sweetheart and be careful. Sure do miss ya. Love always, Shirl

Dear Elaine;

I'm wondering did you get the birthday card? you know I put my address up in one corner for one reason, & you know why.

I've been wondering & wondering have you quit work yet?? You kinda miss calling 6:3375 every day & complaining about your latest developments & condition.

I guess Helen is down staying with you now, put her to work good, & you just take it easy; by when I come home I'll be able to cook more than just Spiggitti & meat Balls for your supper, I know lots of tricks now.

As the Baby will be coming through in Nov. will like I told my lady friend here I'll hit home just about in time to play nurse maid for you. I'll leave here about 27th of Oct. So Be sure & hang on until I get there.

Well the ~~hot~~ heat has hit this Carolina state again; I damn its hot. So damn hot it makes you think your going to die, & I'm not just a kiddie;

Mon

Labor Day

Dear Jalaine;

Here's the letter I told you I wouldn't write, but reckon I'd better.

I went to the Dr. today and ask him all questions you wanted to know. He said going to Mirror Lake could not have turned that baby around or any activity on your part. He says its something that just happens, that they know nothing about. I ask him if the baby could be so active that it pulls it loose and he said no, that they don't know why but sometimes the after birth tears loose and they down know why or how. It just does - he said the Mirror Lake trip did nothing to you only probably make you tired a few days or your moping the floor did nothing he said when mothers loose a baby such as that they have a tendency to look for things that they have done that might of caused it, but he said is nothing on their part, just something that happens that you have no control of. So I say that babys spirit just wasn't ready to come on this earth.

I wish I were up home with you, I'd put you busy making drapes. You left Scott's popcicles in the ref.

The Dr. said mine and Sues blood is tip top now, no more iron pills for either of us. Gonna close. Come down.
